

# CALSEA POWDER ADVANCE

CAS N°	EINECS N°	Chemical formula	Catalogue N° for feed raw material
/	/	/	11.1.5

## PRODUCT DESCRIPTION

Calcium carbonate : Calcite  
 Origin : Europe

## CHEMICAL SPECIFICATIONS

Parameters	Typical specifications	Analysis methods
Calcite	94,0%	
Calcium - Ca	Min : 33% - Typ : 33% - Max : 34%	Complexometry EDTA
Magnesium - Mg	2%	Complexometry EDTA
Humidity - H <sub>2</sub> O	0,20%	Internal
Hydrochloric insoluble	4,6%	Internal
Cadmium - Cd	< 1 ppm	ICP
Lead - Pb	< 5 ppm	ICP
Arsenic - As	< 10 ppm	ICP
Mercury - Hg	< 0,02 ppm	ICP
Fluorine - F	< 1000 ppm	ICP

## PHYSICAL SPECIFICATIONS

Parameters	Typical specifications
Aspect	Light grey powder
Apparent density	0,9 g/cm <sup>3</sup>
Part size	< 315 µm : 80%

## PACKAGING

Big bag 1T  
 25 kg bags covered lost pallet of 1T200  
 Bulk

## RECOMMANDATIONS

It is recommended to keep the product protected from moisture, in a clean and dry place  
 Technical characteristics guaranteed in factory output  
 Not classified as dangerous according to current transport standards

Expiry date : 2 years after production date

## INTENDED USE

Feed

Raw material for animal feed  
 This product this product is in accordance with european regulation 2002/32 /EC and its amendments and 277/2012 concerning the levels of undesirable substances for animal nutrition
